### **Heartfelt greetings !**

Each edition of the Annual Report is almost like an Encyclopedia, documenting achievements and activities of the University so that our stakeholders can have a fair overview of our collective efforts to steer Central University of South Bihar forward in the present time as well as future. As the Vice-Chancellor of the University, which is in nascent phase and proceeding towards a big transformation, the challenges increase many folds to justify the galaxy of responsibilities. However, discharging duties as the Vice-Chancellor is very challenging as well as highly encouraging task that provides eternal solace at the end of day. Thanks to my team of highly skilled and focused teaching and non-teaching staff, and students, who always remain on toes and move shoulder-to-shoulder to see Central University of South Bihar among India's best higher educational institutions.

The Academic Year 2017-18 has been a remarkable year which witnessed growth and all round development of the University in several aspects. Let me begin with the 2nd Convocation of the University held on 27th March 2018 at BIT Auditorium in Patna. The passed out students in the Academic Year 2014, 2015, 2016 and 2017 were given degrees and medals during the Convocation Ceremony. Padma Bhushan Dr. Vijay P. Bhatkar, the renowned Scientist in the area of Information and Computer technology who developed the Param Super Computer graced the Convocation as Chief Guest. The JANAK of Super Computing in India, Dr. Bhatkar delivered the Convocation Address and said that "India has come a long way since Independence and I am sure the 21st century would belong to India". He urged students to follow tradition and values of the county, and utilize the opportunities not only for academic excellence but for the development of the society. A total of 90 Gold medals were given to toppers which include Chancellor Gold Medal (5), School Gold Medal (25) and Department / Centre Gold Medal (60). Inclusive of the 90 Gold medalists from different courses at UG (Undergraduate), PG (Postgraduate) and M.Phil levels.

Besides the successful conduct of the Convocation Ceremony, the University advanced into a new phase with addition of three new courses, Ph.D. research programmes, revision of syllabus and adoption of full Choice Based Credit System (CBCS) to offer full flexibility in choice of courses to students in addition to a number of workshops, conferences, talks, etc. organized round the year. The students in addition to their academic curriculum proved their brilliance by cracking tests like UGC JRF – NET, GATE, and getting internships and job opportunities in many organisations and educational institutions across the county. Under the guidance of their teachers (faculty members), the talented students participated in many national level sports and cultural competitions, and glorified their Alma Matter with their brilliant performance and winning medals.

Coming back to the infrastructure development (building construction) work, an important component of the growth and development index of any new institution, I am feeling glad to share that the buildings were completed in record time and the University is now fully functional from its permanent campus at Panchanpur. CUSB is now flourishing in its 300 acres campus and welcoming all for quality education and research, and ready to serve as an "Institute of Excellence" and contribute in "Nation Building". We are committed for the excellence and it would continue in the coming years well, and looking ahead to make CUSB a government funded institution of global standard, which is achievable if we work as a team with same zeal and enthusiasm.

(Prof. Harish Chandra Singh Rathore)

## 2nd Convocation – 27th March, 2018

The Central University of South Bihar (CUSB) awarded degrees to the passed out students during the 2nd Convocation of the University held on March 27, 2018 (Tuesday) at the auditorium of Birla Institute of Technology (BIT) in Patna. Padma Bhushan Dr. Vijay P. Bhatkar, the renowned Scientist in the area of Information and Computer technology graced the occasion as Chief Guest. Referred as the JANAK of Super Computing in India and presently the Chancellor of Nalanda University, Dr. Bhatkar delivered the Convocation Address. Dr. Bhatkar congratulated the CUSB fraternity for scaling the new heights in the short span of nine years since its establishment in 2009. The chief guest specifically mentioned about the contributions of founder Vice-Chancellor Prof. Janak Pandey for shaping up the academia of a new institution. Further, he praised current Vice-Chancellor Prof. Harish Chandra Singh Rathore for carrying ahead the University on a right path and ensuring all round development. Dr. Bhatkar also congratulated the Vice-Chancellor for taking the steps for starting six new postgraduate courses in forthcoming academic session (2018-19) and construction of University's new buildings in Gaya.

Dr. Bhatkar said that India has come a long way since Independence, when it was a poorest country on the globe, but I have seen the flight of the country in the last seven decades. However, contrary to some negatives, I am proud of its accomplishments and it is a matter of pleasure that India is now firmly on the growth path. If it continues further, I am sure the 21st century would belong to India. When we were students, we had to work really hard to collect any information from various sources. Today, students have access to everything. They simply need to utilize the facilities efficiently," Dr. Bhatkar said and urged students to follow tradition and values. As you pass out today, now your real education will begin in the real world. Remember, this time of history will never come back again and you all have to make it count. "It is a great opportunity for students studying in this University as they can utilise their opportunity not only for academic excellence but for the development of the society." He said the graduating students were passing out a time when the country was blessed with a unique opportunity like never before. At present India is the third largest economy and is expected to surpass even the USA by 2040.

It has a rich demographic dividend with an average age of 29 years. India today has one of the largest education systems of the world. Even in the field of science and technology, space technology and computing, the country has achieved a lot despite starting from scratch. We are now launching satellites for the world. The entire world is surprised by India's development, added Dr. Bhatkar.

Earlier, CUSB Vice-Chancellor Prof. Harish Chandra Singh Rathore presented the Annual Report of the University and highlighted the goals and achievements. Prof. Rathore said that the university has moved forward since its inception in 2009 and from the next academic session it will shift to its permanent location at Panchanpur in Gaya. The permanent campus is zero discharge green campus complying with Green Rating for Integrated Habitat Assessment (GRIHA's) five-norm rating. Adding further, Prof. Rathore said an ideal University must focus on integration of education with values. It was a tribute to the CUSB's solid foundation and work ethos that it had achieved "A" grade in NAAC and ranked 94th in the National Institutional Ranking Framework (NIRF) in 2016. It is because of the University's innovative teaching and evaluation process. Soon with the implementation CBCS (Choice Based Credit System) the students of the University will have full flexibility in designing the curriculum and education on demand, said the VC of CUSB. A total of 675

students passed out in the Academic Year 2014, 2015, 2016 and 2017, were given their degrees during the Convocation ceremony. A total of 90 Gold medals were given to toppers which included Chancellor Gold Medal (5), School Gold Medal (25) and Department / Centre Gold Medal (60). Sucheta Sharma (MSc Mathematics), Rohit Kumar (Integrated BSc+BEd), Puja Kumari (MSc Computer Science), Fauzia Parween (MSc Life Science) and Premlata Kumari (MSc Biotechnology) got the 'Chancellor Gold Medal'. The students in specific dress-code (traditional Indian attire) with dazzling smiles were present inside the auditorium to receive their degrees. For girls, the dress code was white colour salwar, kurta and dupatta or white sari with red / maroon border with matching blouse, while for boys it was white cotton kurta and Aligarh payjama. The students were also donning a head dress (pagdi) and a patka with the University logo on one panel and the Convocation logo on the other panel. Many dignitaries like Nalanda University VC Prof. Sunaina Singh, National Institute of Technology-Patna director Prof. P. K. Jain, Mahatma Gandhi Central University (Motihari) VC Prof. Arvind Agarwal, CUSB ex-VC Prof. Janak Pandey, Pro Vice-Chancellor Prof. Om Prakash Rai, Registrar Dr. Gayathri Vishwanath Patil, Controller of Examinations Mrs. Rashmi Tripathi and Finance Officer Mr. Girish Ranjan attended the Convocation Ceremony.

## Co-curricular Activities / Events at CUSB

### Ambedkar Jayanti (13th April, 2017)

If we really wish to pay tributes to Bharat Ratna Dr. Bhimrao Ambedkar, we need to make a caste-free India and it would be real tribute to him, said CUSB Vice-Chancellor Prof. Harish Chandra Singh Rathore during Ambedkar Jayanti celebrated in the University on April 13, 2017. Speaking during the 126th Birth Anniversary of Dr. Ambedkar, Prof. Rathore said that we should be proud of our country as the couplets "Saare Jahan se Achcha Hindustan Hamara" describes the grandeur of India. However, India can be a prosperous nation in all aspects only by following the path suggested by Dr. Ambedkar and the constitution drafted by him. On this occasion CUSB's students' circle Renaissance organised the special event under the chairmanship of Vice-Chancellor which was attended by faculty members, staff and students. Likewise, in Gaya campus of the University Ambedkar Jayanti was celebrated with pomp and gaiety. The Academic Committee, Gaya Campus organized a panel discussion on the topic "Ambedkar and Nation Building in Contemporary India". Prof. O.P. Rai, Pro-VC CUSB inaugurated and presided the discussion. The main speakers of the discussion were Prof. S.P. Srivastava, Dr. Alok Kr. Gupta & Dr. Jitendra Ram.

students of the university were participants in the discussion. Mr. Atish Kumar Dash, the Academic Committee member introduced the talk and also extended the Vote of thanks.

### Ek Bharat Shreshtha Bharat Week (1st Week of May, 2017)

CUSB organised various events (activities) under the 'Ek Bharat Shreshtha Bharat' during the first week of May, 2017 as per the guidelines received from UGC / MHRD. The purpose of the weekly celebration was to make the students, faculty and staff aware about the ideologies of unity, integrity and excellence of India. As per the direction given by the Vice-Chancellor Prof. Harish Chandra Singh Rathore the events were organised under the supervision of Dean Students' Welfare Dr. Sanat Kumar Sharma.

### Veer Kunwar Singh Jayanti (26th April, 2017)

The Academic Committee of CUSB organised a talk-cum-discussion to commemorate the birth anniversary of noted freedom fighter Babu Veer Kunwar Singh on 26th April 2017. ## 1. School of Earth, Biological and Environmental Sciences

It is a century of Biology and most of the challenges that we are facing in today's time are global warming, pollution, human diseases and changes in our natural resources. A deeper understanding of Biology will not allow us to overcome these problems but also help to sustain the existing natural resources. The Centre for Biological Sciences (CBS) plays a leading role in achieving this goal with its strengths lying across the fields of genomics, biochemistry, informatics, emerging infectious diseases, basic and applied biology. These strengths are underpinned by faculty members who are expert in their fields and are re-investing their knowledge through exceptional student training.

### (A) Centre for Biological Sciences

The Centre for Biological Sciences (CBS) is offering the PG, Integrated M.Phil – Ph.D. & Ph.D. programmes in Life Science, Biotechnology and Bioinformatics. These programmes include well-designed theory and practical courses along with innovation-based training methods in frontier areas of Biological Sciences. Each of these three programmes is well equipped with the facilities to train students with deep theoretical as well as practical understanding of different aspects of biological processes, and promote them to take on an integrative approach for their higher studies and research.

#### (i) Bioinformatics Programme

Bioinformatics department gears up the students towards research not only by providing them with basic understanding of the subject but also inculcates in them the thirst for applied research in frontier area like Molecular Modelling, Simulation and Computer added drug designing, System Biology and Functional Genomics. Analytical techniques, management and analysis of Biological databases are also taught since there has been a paradigm shift in theoretical biology from reductionist approach of Molecular Biology to an integrative approach of treating the cell as a system.

## (ii) Biotechnology Programme

The department of Biotechnology follows interdisciplinary approaches with participation of faculty/researchers across the University. Hands-on training with professional and management skills are keys to our teaching pedagogy. This department focuses on responsibility building and ethics in research and policy. Equal emphasis is given on integrated approaches in human health, transgenic crop development, environmental sciences and informatics. One of the major goals of the Biotechnology Programme is to engage students by actively involving them in cutting edge research. Currently, departmental research is mainly focussed in the areas of Cancer Biology, Autoimmune Diseases, Fungal Diseases, Lung Physiology, Neuroethology, Immunology, Genetic Engineering, Stem Cell Therapy, Proteomics, Molecular Biology, Signal Transduction, Interferon (IFNs) Transcription Factors, Neuroimaging, Electrophysiology, Biochemistry of Fungal Pathogens and Genesis of Secondary Metabolites as well as Genetic manipulations of Plants which include Plant Tissue Culture and Molecular Marker Developments.

### Dr. Rizwanul Haque

#### M.Phil. Thesis:-

1. 2017: Saniya Khan, Centre for Interdisciplinary Research in Basic Science, JMI, ND-25
2. 2017: Mr. Nafis Raj, Centre for Interdisciplinary Research in Basic Science, JMI, ND-25

#### Ph. D. thesis evaluated

1. 2017: Rajeev Ranjan, INMAS (DRDO), New Delhi- 110054, Bharathiar University, Coimbatore.
2. 2017: Shuruti Vishnoi, Dept. of Medical Elementology & Toxicology, School of Chemical and Life Science, JHU, ND-62
3. 2017: Mr. Syed Suhail Andrabi, Dept. of Medical Elementology & Toxicology, School of Chemical and Life Science, JHU, ND-62

#### Expert Academic activity

1. Served as an External Expert for the evaluation of Technical Bids for purchase of instruments for Department of Biotechnology, RMRIMS Patna. April, 2016, Jan-2018. Also served as a committee member for technical expert for purchase of some instruments in RMRIMS, Patna Feb 2018.
2. Served as an External expert for GE511 (Seminar) examination for MS Pharm (Biotechnology) 2017-19 of NIPER, Hajipur. January 2018
3. Served as Examiner for Ph.D viva-voce examination in The Department of Toxicology at Jamia Hamdard University, New Delhi December-2017
4. Expert to evaluate the examination (seminar/Presentation) of Second semester End term examination of MS Pharma Biotechnology Sept-2017.
5. Chairperson: NIPER Inquiry Committee for plagiarism NIPER, Hajipur, -Sept-2017

#### Expert selection cum promotion committee

1. Served as an External Expert for the up gradation of JRF to SRF of UGC fellow working in ICMRMS, Patna 20th Feb-2018.
2. Served as Expert member in RMRIMS, Patna for the selection of Project Assistant under R&D project in National Network Programme OF Human Health, DST, Govt. of India, 2018.

## Dr. Antresh Kumar

- Rational approach of herbicide discovery against herbicide resistant acetolactate synthase of Phalaris minor: Gene to herbicide approach recommended, to as a Co-PI, under SERB- Extramural Grant (EMR/2016).

## Dr. Nitish Kumar

- Felicitated with Outstanding faculty in Biological Science Award in the year 2017 by Venus International Foundation, Chennai, Tamilnadu, India.

### (iii) Life Science Programme

This department offers the courses designed to give opportunity to learn modern biological techniques with the facilities to understand various fields of basic and applied biology e.g. genetic engineering, immunology, recombinant DNA technology, protein crystallography, neurobiology, microbiology, cancer, malaria etc. This platform nurtures student's thinking to observe, analyse, interpret and utilize the biological techniques and phenomena in basic as well as applied fields. Different modes of teaching are adapted to train and groom students. Presentations, assignments, experimental proof of theories, field observation, data analysis and computer applications in biology are few methodologies which are being applied for teaching.

### (B) Centre for Environmental Sciences

The Centre offers the programmes with the emphasis on multidisciplinary and integrated study of the Earth, Atmospheric, Biological and Chemical processes, and their linkages with developmental perspectives for attaining sustainable environment. The major thrusts are: (i) To study natural resources, the impacts of human activities thereon and the implications of environmental degradation on human development. (ii) Natural processes in the Environment (iii) The Human Dimension of Environmental Change to understand the determinants of the growth of populations and economies & (iv) Analytical Tools in Environmental Science: basic tools for analyzing environmental issues, such as data collection and analysis and modelling of air, water, soil and biological systems. The environmental science laboratory is well equipped for carrying out experimentation and research in Climate and Monsoon Modelling, Climate Change, Ecology, Biomanipulation and biocontrol, Biogeochemistry, Pollution monitoring and control, Environmental Engineering, Environmental biotechnology and microbiology, Ecotoxicology, Soil sciences, etc.

## 2. School of Education

Since its establishment the School of Education is committed to provide vast exposure and experience to the future teachers. The courses of the programmes in the School are updated as per the need of the hour and the latest norms of NCTE and UGC. The School has a remarkable collection of books and journals in print and digital form, and has well-equipped Educational Resource Centre having a collection of educational policies documents, psychological tests & experimental equipment, digital learning resources, teaching-aids etc., along with the facilities of lab.

## 3. School of Human Sciences

The School of Human Sciences aims to study human beings as a social, cultural and biological species in the context of their experiences, activities, constructs and artifacts. The human nature is not discipline bound, and therefore the School emphasizes interdisciplinary approach to understand it. The school has a mission to pursue quality education and research for greater understanding of human nature and challenges faced by humanity. Disciplines like Anthropology, Psychology, Social work and other Social Sciences interactively may engage in research leading to knowledge system that serves the development of mankind. The objective of the school is to create advance scientific knowledge in various Human Sciences through research.

## Centre for Psychological Sciences

With a vision to spread and create world class knowledge in the field of Psychology, the Centre for Psychological Sciences (CPSYS) recognizes the immense potential of Psychology and its utility in improving quality of life of individuals and society. The mission of the Centre is to educate and train psychologists who can serve the humanity. It is presently offering programmes in Psychology with specialization in Social Psychology, Organizational Behaviour, Clinical Psychology and Counselling Psychology. The existing Psychology laboratory provides three kinds of facilities- conducting experiments, psychological testing and qualitative research. The laboratory also enables students to carry out computer based experiments and lab experiments on psychosocial phenomenon. The laboratory contains numerous psychological tests such as neuropsychological tests/batteries, personality tests, intelligence tests, adjustment scales and many other important scales. The psychology lab is equipped with softwares such as SPSS, R and QDA to carryout analysis of the research.

## 4. School of Languages and Literature

Centre for Foreign Languages (English)

Centre for Indian Languages (Hindi & Urdu)

Human civilization evolves through innumerable phases of language evolution. Knowledge too in its resurgent march unflinchingly walks hand in hand with languages to streamline learning. Creative endeavours representing human behaviour mould languages to shape literature. As signifier of lingual heritage, literature showcases cultural diversities to promote learning through textual interpretations. The School of Languages and Literature is grounded in the above said ideas to facilitate studies in language and literature and to promote communication and representation skills. Interdisciplinary approach with cultural dimension in the pluralistic society forms the objective of the school. The two Centres are open to incorporate various academic programmes in Indian and foreign languages respectively for study and research in the understanding and interpretation of cultures and the contextual correlations of language and literature worldwide.

### (A) Centre for Foreign Languages (English)

The Centre for Foreign Languages (CFL) English has been imparting sound knowledge of the trends and movements in British, Indian, American, European, and New Literatures and Literary theory. Promoting inter-lingual approach to literature the Centre lays emphasis on improving students' proficiency in communication skills and on their overall development with literary and linguistic competence along with inculcating in them human values through literature. The critico-analytical method is chiefly employed for teaching, and students' mentoring/ counselling and various co-curricular and extra-curricular activities are carried on at the Centre.

## 5. School of Law and Governance

The School of Law and Governance has started working from the academic Year 2013-14. Each programme has been designed in compliance with BCI and UGC norms. Its syllabus is structured with an objective to meet the global demand of modern legal education. In compliance to Legal Education Rules 2008 the School has established Legal Aid Clinic to sub-serve the interest of vulnerable classes and to inculcate among the students the sense of social responsibility. It also provides training of Moot Court and Model United Nations to all the students. The school is striving towards imparting quality legal education to meet the professional demand as well as to promote personal development. The mission of the school is to equip the students with critical thinking, analytical and applied skills and also to make members for bar and bench.

## 6. School of Mathematics, Statistics and Computer Science

The School consists of three departments namely, the Department of Mathematics, the Department of Statistics and the Department of Computer Science. The vision of the School is to provide quality education and to undertake and support the interdisciplinary research through interaction between Mathematics, Statistics and Computer Science and also with other domains of knowledge. Mathematics, Statistics and Computer Science have played a very important role in building up modern civilization by perfecting all sciences. Setting a novel trend of interdisciplinary approaches, the three departments under the School are not only educating and training their respective students but also help in other disciplines in their regular as well as special courses by providing relevant skill to solve academic and technical issues.

### (A) Department of Computer Science

The Department of Computer Science aims at providing opportunities for global excellence and local relevance in research, teaching and technology development. The department has well equipped air-conditioned lab with high end computers and required software including servers to provide computing facilities to the students. The department has a dedicated network printer/Centre for providing printing and scanning facility as well. The department has Tablets and Android mobile phones for development of android based applications. The department also offers several attractive training and workshop programmes along with industry tie up according to the market needs.

## (B) Department of Statistics

The Department of Statistics provides a vibrant and creative learning environment to students willing to make a career in the field of core and interdisciplinary statistics. The academic activities of the department emphasize deep understanding of fundamental concepts and development of the analytical ability to solve real-life problems. It also encourages students to engage in extra-curricular & co-curricular activities, essential for developing organizational skills. Classroom teaching of the department is supported by tutorials & the continuous evaluation system is followed to assess the progress of the students. There is a well-equipped computer laboratory with high speed Internet connection and softwares that include Minitab, SPSS, R, MATLAB and IBM Data Modeller to work with.

## (C) Department of Mathematics

The Department of Mathematics has the objective of producing trained manpower for undertaking research and teaching in Mathematics, and allied branches of basic and applied sciences. The department offers a balanced blend of foundational, core and specialized courses. The courses are aimed to train the students in all the basic fields of Mathematics so as to develop in them skill for creative thinking, understanding fundamental concepts of the subject, problem solving and for achieving professional competence in Mathematics. The courses have been designed in such a way that the student will be able to learn the subject in a systematic and methodical manner under the able guidance of the faculty and general environment of the university. There are numerous avenues available to the students after the successful completion of the course.

## 7. School of Media, Arts and Aesthetics

Human life is nourished by the elements of arts and aesthetics and the media is the center of human communication. In this respect media, arts and aesthetics are the integral segments of human life. The academic study of these aspects of life is significant so far as the total development of human life is concerned. To fulfill the academic needs, behavioural patterns and cultivation of futuristic ideas and patterns of life are the mission of teaching, training and research in the School of Media, Arts and Aesthetics. The core idea behind the establishment of the School is to develop such PG level courses to combine various media, culture and art forms together. The School is interdisciplinary in nature which enlarges students' umbrella of knowledge and understanding. Besides, the School aims to give hands-on practical knowledge of various forms of media, arts and aesthetics with rigorous industrial training modules.

### Centre for Mass Communication & Media

The ever converging world of mass media has fuelled the need for multi-tasking and multi-talented media professionals. While CUSB always aims at high academic standards, extra-curricular activities and innovative research, seminars etc., its Centre for Mass Communication and Media (CMS) enable the students to develop hands-on pre-requisite skills, interact with industry experts and exchange ideas with students from other institutes and backgrounds. All this altogether at CMS makes an amalgamation of brilliant ideas, top-class academic standards and best-in-class facilities. CMS is accustomed to experiment with various innovative academic activities to enhance the media understanding among students.

## 8. School of Social Sciences and Policy

The School of Social Sciences and Policy embodies cohesiveness of multiple disciplines that seek their relevance in understanding and analysing human behaviour in an integrated framework. The school has four Centres namely Centre for Development Studies, Centre for Economic Studies and Policy, Centre for Sociological Studies, and Centre for Political Studies. It continuously endeavours to blend its teaching engagement with empirical research and to provide holistic understanding of societal issues by correlating various disciplines to make students perfect human beings as well as social, economic and political people.

### (A) Centre for Development Studies

The Centre for Development Studies (CDS) as a multi-disciplinary Centre, aims to equip the students with critical, analytical and applied skills that they use in future either as academicians or as development practitioners. It provides opportunities to students to critically examine a relevant body of knowledge (theoretical perspectives and approaches). The academic programmes enhance the insightful understanding and interplay of social, cultural, ecological, political, and economic variables in the development process which is required to constructively deal with inequitable outcomes of the development.

### (B) Centre for Economic Studies & Policies

The Centre looks at academic engagement with a difference. While the major focus is on teaching of basic principles of Economics, the Centre's search is for new epistemology both in theory and practice. It continues to focus on improving its course curriculum based on the evolving theoretical paradigms being witnessed in the field of Economics by different schools of thought. The diverse knowledge base in Economics and its ramifications on society and polity continues to be a primordial source of choice for direction of research. The Centre nurtures creative impulses of both faculty and students, and continuously provides forums for developing critiques of existing theories and practices only to create a new space for the latter. While doing so, it contextualises emerging theoretical postulations at all levels including local, sub-regional, national and international levels. The Centre aspires to develop it as a unique centre of learning and develop collaboration with other institutions for teaching and research.
